

SSDM2024 Lunchtime Events (Sep. 2 and 3)

Lunch Event Space in Exhibition Hall A (Arcrea Himeji 1F)

(No additional registration or fees are required)

On September 2nd and 3rd, we have planned Lunchtime Events to make your lunchtime more meaningful by offering the chance to experience Japanese culture and worldwide technologies. You can purchase your preferred lunch from the food trucks and enjoy it in the event space in Exhibition Hall A while participating in the event. We hope you have a special time at the SSDM2024 Lunchtime Events.

(The starting times below may be delayed depending on the status of the morning sessions.)

Sep. 2 (Mon) 13:00~14:00

Sake Talk and Tasting Event by Honda Shoten (Sake Brewery)

Presenter: Ryusuke Honda, President of Honda Shoten Co., Ltd. (Tatsuriki)

Join us for an enlightening and delightful experience at our Sake Talk and Tasting Event. Discover the rich history, intricate craftsmanship, and unique flavors of Japanese sake. Our event features expert talks by renowned sake brewers, providing insights into the art of sake making and the significance of terroir. Following the talks, indulge in a guided tasting session where you can savor a variety of premium sakes, each with distinct characteristics. Whether you're a sake enthusiast or new to the world of sake, this event promises to deepen your appreciation and knowledge of Japan's national beverage.

Sep. 3 (Tue) 12:20~12:50

SPring-8 Facility Introduction by RIKEN SPring-8 Center

Presenter: Tetsuya Ishikawa, Director of RIKEN SPring-8 Center

We will be hosting the "SPring-8 Facility Introduction Event by RIKEN" as part of the lunchtime events on September 3rd. SPring-8 -the world's largest third-generation synchrotron radiation facility- is relatively close to the SSDM2024 conference site (approximately 15 km). Since attending the on-site tour at SPring-8 on your own can be challenging for many attendees, this lunchtime event offers a valuable opportunity to learn about SPring-8 without the need to travel. We will be inviting a speaker from RIKEN SPring-8 Center to provide a detailed introduction to the facility and its research. This is a valuable chance to gain insights into SPring-8 while attending the conference. We encourage you to join us for this informative session.

Sep. 3 (Tue) 12:50~13:15

Short Presentations by Exhibitors

In SSDM2024, a company exhibition featuring 20 exhibitors is being held on the 4th floor. As the second half of the September 3rd lunchtime event, five exhibitors will give short presentations (each about 5min).

The participating companies are:

1. SIJTechnology, Inc. (SIJ テクノロジ)
2. Silvaco Japan Co., Ltd. (シルバコ・ジャパン)
3. JEOL Ltd. (日本電子)
4. Heidelberg Instruments (ハイデルベルグ・インストルメンツ)
5. Samco Inc. (サムコ)

The talks will be primarily in Japanese, but English slides will be provided to ensure that all participants can enjoy the presentations.
